Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Tuesday 26 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
An icy start, before a wet week commences.

Today:
A cold, cloudy and icy start in the morning before a band of rain arrives from the west and slowly moves eastwards through the day, giving a wet day. Feeling cold, especially where any snow lies. Maximum temperature 6 deg C (43 deg F).

Tonight:
Any remaining rain from the day slowly clears eastwards, giving a dry night. Cloud cover becomes patchy, and some isolated fog patches may develop. Minimum temperature 0 deg C (32 deg F).

Wednesday:
Any remaining showers clear turning the day dry but cloudy for most, although some southern parts continue to see patchy rain. Rain then arrives from the southwest during the night. Maximum temperature 8 deg C (46 deg F).

Outlook for Thursday to Saturday:
Showery Thursday morning, then turning dry briefly before further rain arrives during the night. Drier Friday, though patchy rain and showers continue for some. Dry, bright and cold Saturday.
